## **DETAILED ACTION**

### ***Response to Amendment***

Applicant's arguments filed 09/30/08 have been fully considered but they are not persuasive. The Amendment and the response submitted by Applicant do not overcome the rejection made by Examiner in the last Office action .

Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 02/25764.

The rejection is maintained for the reasons as stated in the last Office action and for the following reasons:

Note that at least claim 1 has been amended to include a limitation in that an anode that includes a polymer, a cathode that includes a polymer and proton exchange membrane includes a polymer in general and no specific polymer has been claimed.

The reference does disclose that the sulfonated polymers can be formed into membranes that may be used in proton exchange membrane fuel cells or as ion exchange membranes in the presence of a heteropoly acid (see Abstract) in that the fuel cells comprising anode and cathode (see page 2, line 2 and in Figure 1).

In Figure 1, the conductivity cell includes a polymer block 1, thumbscrews 2 and a membrane 4, such as a proton exchange membrane, the platinum foil electrode 5, as required in the claims.

Further, the reference does disclose the use of Nafion as PEM component in the past, and has been replaced by other polymers such as sulfonated polystyrene, styrene butadiene block copolymers, PEEK--- (See page 2, lines 9-11 and in the examples).

Based on the mechanism in the examples, at least one of anode and cathode comprise a sulfonated copolymer, as well as PEM, in order for the proton exchange can be occurred.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
